 TimothyStiles committed on GitHub updated README.md to include minimum lab requirements.	Latest commit 28b5fc4 4 days ago
 protocols created initial project structure.	9 days ago
 resources/plasmids added addgene plasmid pML104 genbank file sequence.	4 days ago
 test created initial project structure.	9 days ago
 CODE_OF_CONDUCT.md created initial project structure.	9 days ago
 README.md updated README.md to include minimum lab requirements.	4 days ago
 contributing.md created initial project structure.	9 days ago
 roadmap.md created initial project structure.	9 days ago

OYEP (Open Yeast Engineering Project)

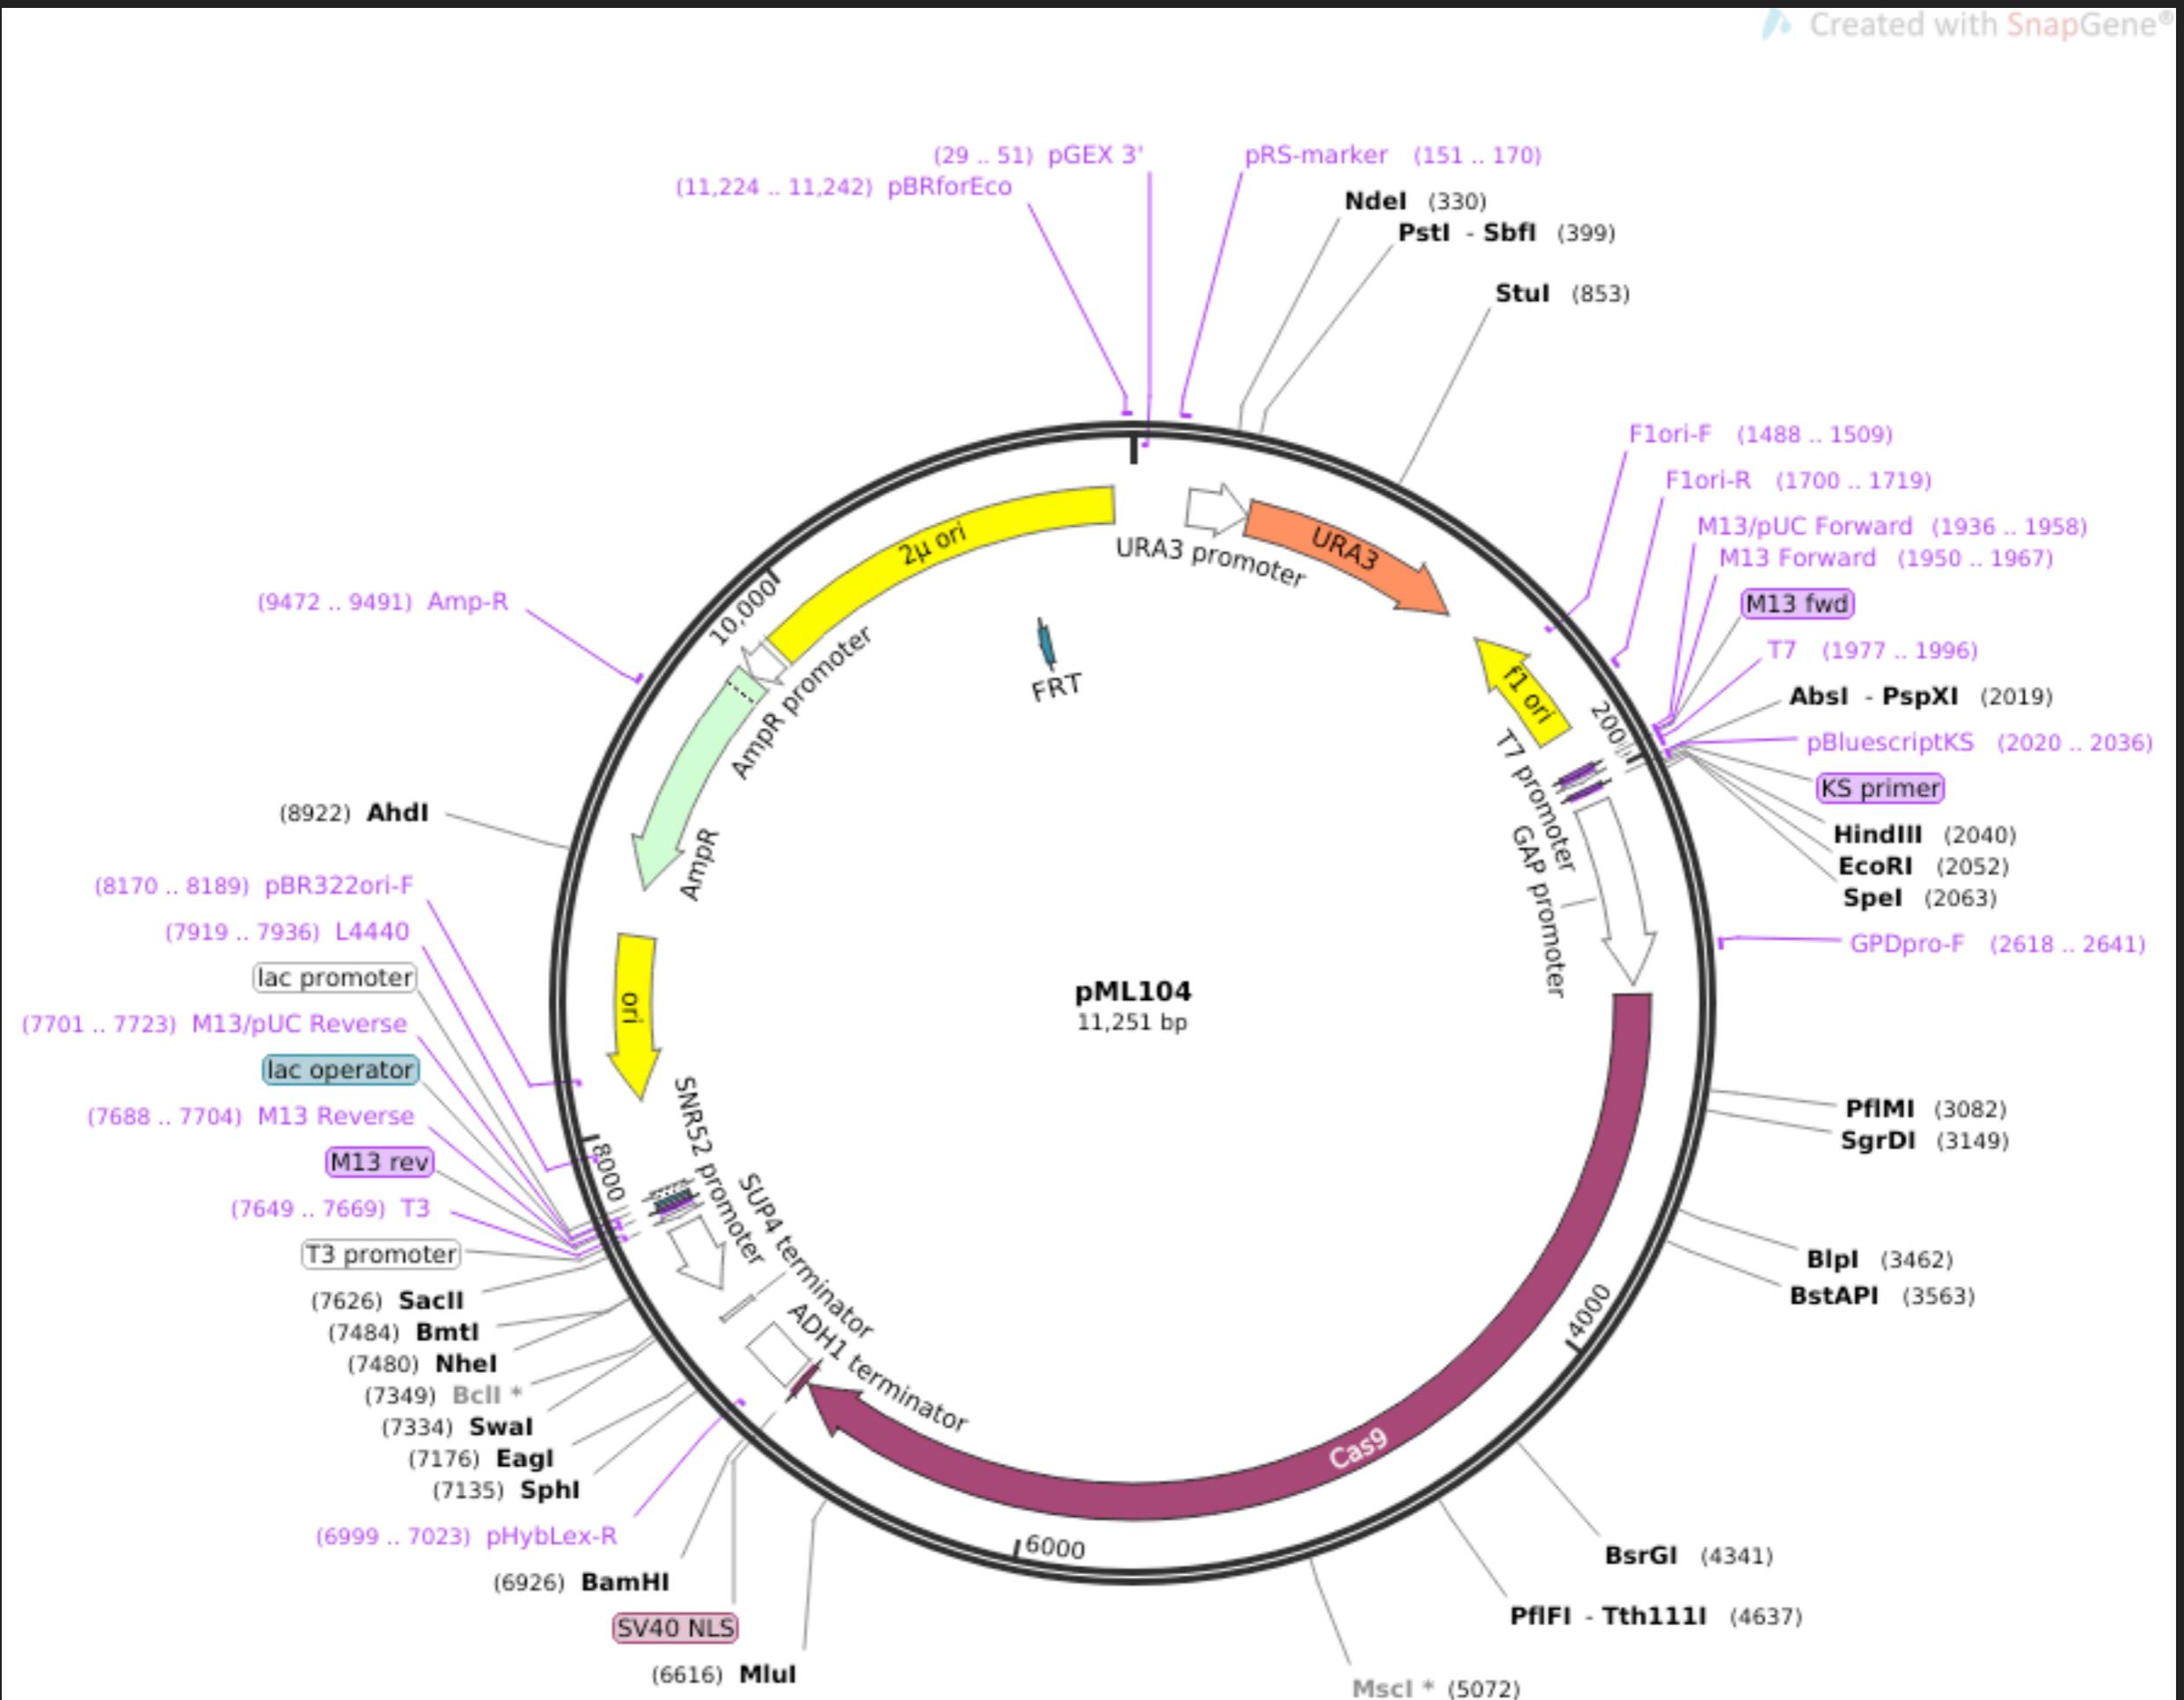

Oyep is a community collection of yeast engineering protocols. Learn how to engineer yeast. Make beer, bread, clothes, sensors, etc with what you engineer. Share it with the community.

Minimum Lab Requirements.

Check out <https://diybio.org/local/> to find your local DIYbio space.

Most protocols in this collection require access to a **BSL-1** molecular biology lab with at least the following resources.
